**3mmTop** : One piece 3mm thick stainless steel structure.

**FlushTop** : Module can be butt jointed.

**Start&Cook** : Automatic electric spark ignition with pilot and ionisation flame control.

**CoreControl** : Power adapts with well base regulation.

**GENERAL**

- \* All stainless steel construction designed to avoid any infiltration.
- \* Unfailing sturdy equipment for direct wall fixation.
- \* Controls grouped together and recessed protecting them for impact and spillages.
- \* Appliance delivered with 200mm fixed stand with 4 adjustable feet.

**BRATT PAN**

- \* This appliance has a full width tilting well.
- \* Its base with a usable surface area of 63 dm<sup>2</sup> is heavy gauge stainless to ensure even temperature distribution.
- \* The large format pouring funnel allows for quick and clean drainage (no dripping on the front panel) guaranteeing a constant impact point in the gutter.
- \* Hot and cold water is supplied via a solenoid controlled by a 4 position switch and a chrome spout.
- \* The lid is counterbalanced by a system built into the flue vent that allows the load and stop angle to be adjusted.
- \* Two foot controls (raise pedal, lower pedal) allow the well to be raised smoothly and stopped in any position by its electric ram. The tilt is limited by high and low safety systems.
- \* Heating is regulated by a thermostat (for back temperature) + an energy regulator simmerstat (for the power) to drive a gas solenoid.
- \* Temperature distribution is ensured by a micro perforated fixed burner with 12 flame ranges.

**OPTION**

- \* 15mm bi-metallic base (12mm soft iron + 3mm stainless).

**ACCESSORIES**

- \* See technical data : General features.
